

EVERGREENS

Tsuga canadensis

Canadian Hemlock

Height: 35'

Growth: slow

Spring Foliage: glossy green-silver underside

Fall Foliage: glossy green-silver underside

Spread: 25'

Habit: pyramidal

Flower: inconspicuous

Fruit: small cone

Application

With graceful arching branches and soft short needles, hemlock is a good choice for use as a screen or as a specimen. It prefers moist well-drained soil and protection from dry winds, but does well in sun to almost full shade.
